

# DEAD

slowthai

Take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

See me posted up with a bimbo  
Easy, life's been fucked and that's my window  
It's just me, my friends and my kinfolk  
We just laid a bet and it come in so  
B just bought a round, we watch the football  
We don't take kindly to no insults  
We all aim at you plain and simple  
Achoo, no bless you, I gotta get you

Take away my loved ones, you will never take the light  
That shines inside my heart and makes me real by design  
When it's ugly change for money, see that they ain't got no spine  
People change for money, what's money with no time?  
Say it once, say it once, yeah  
Everybody dies  
Say it once, said it once  
Everybody dies  
My vida loca, true I lead this crazy life  
Tune banging in the motor, gun-fingers to the sky

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind

I am dead, I am God  
I am here till the end of time

What don't kill you, fam, makes you stronger  
I take liberties, try and I prosper  
With no nicotine, Ty is a monster  
You snake slithering, I'm Harry Potter  
Leave a sentiment, steeped in vodka  
No one here ever can knock my posture  
I stand tall, you ball, curl up and sob, brah  
I carve my name into each and every log

When we go  
Where the flowers grow  
Let me know  
How it goes  
I dare say it's rare for me to care  
I stare at thin air imagining what could be there  
I visualise and see to your surprise  
My demise could never be  
On G-O-D  
You can take away my time, you can't take away my mind  
My legend will live for eternity

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time

They can take away my flesh  
But they'll never take my mind  
I am dead, I am God  
I am here till the end of time
