

Yeah

Fuck a fortune teller, I'm a force of nature
Have ups and downs like a elevator
I'm the instigator, you're a nondisclosure
Piss taker, now I've got a boner
On the way down, smiley face
Forget their names, I remember faces
I'll see you later, alligator
Then I'm catching cases, I'll make the papers
I'm a dream chaser, days are numbered
Big bump, I need a bumper sticker
What the bumba? That's my missus
Fuck around, put some children in her
I'll put that on my kids, find out where you live
When the time is right, I forget, don't forgive
I needed revenge so I made a pledge
To kill you with kindness, not hollow tips

Keep my name out your dirty mouth
Frightened, don't know what you keep on crying 'bout
I set fires 'cause I'm burning to burn down your house
I get lit, I get lit, I get lit, I get lit

Don't make me get petit filous
No telling what he might do
Try be broke, cookin' coke in a glass
Feeling like I couldn't cope
Laughing stock, who told the joke and laughed?
'Cause you're getting poked
That how it go, you know I'm the GOAT
This is my cannibal flow
We all make mistakes
But I eat my own, to each is our own
I got a bone to pick (Yeah)
I got a bone strapped and we call it stick
Aimed at your head and I miss
Aimin' it right at your kids
Turn them to a children's choir
'Cause I made them sing, set fire to your crib

You know, I get it lit
You know, I get it lit
You know, I get it lit
Hold your bitch 'cause she want it lit
Little piggy can't look that fly
Little rapper can't let that slide
Never been a bitch, never hit a bitch
But I hit a bitch with my dick if that's what she likes

(slowthai, you have officially been cancelled, cunt)

Keep my name out your dirty mouth
Frightened, don't know what you keep on crying 'bout
I set fires 'cause I'm burning to burn down your house
I get lit, I get lit, I get lit, I get lit
