

Fuck It Puppet

slowthai

Whispers, "Why the voices make me act impulsively?"
My touch corrosive, I been tryna OD
Why I always got the notion no one cares about T?
Wanna watch the world burn 'cause the world been burning me

Insecurities, fuck 'em, I need cash
Rob youts, push crack, push your wig back
Send a yout back to Turkey, selling Shirley out the cab
Been up from early 'cause I'm gonna relapse
All the good I done, why they focus on the bad?
I was tryna stop drugs, drugs stop me in my tracks

"Here, my brother, go on, have another"
I have dreams of dying, I've been hanging from the shutter
I have schemes of frying pussy holes like they're chicken wings
(Protein diet)
Creatine for the fucking gym, at least mum loves me
Bro your mum's bias
Shut the fuck up, weed for your arthritis
I'm depressed (No, you're not)
Wanna kill myself (Good)
You wouldn't do it anyway, bro, you need a push
Man I wanna live (Bro, shut the fuck up)
Here's some cocaine, bro mane, it'll make you feel good
Need luck
Knock on wood, you won't be good enough

Shut the fuck up
I'm your friend, no you're not
Good looking cunt, I'ma do it on my own
Okay bro, delete my number from your phone
