Noddy

slowthai

Weight of the rain on my shoulders
With my brain I move these boulders
Conscious, no conscience
Condescending notion
I smoke her older bipolar with the flow cah'
I don't like nobody when I'm sober
Remain alone at home on the sofa
20 missed calls on my motorola
Flip-phone, flipped dough, baking soda
King Whitey, I look green like yoda
It's thaichi come through with a boner
See your witch be like: "yo come over"
She can get foggy in her zone like Omar
Paid in full, rattling snakes and cobras
Man are from north like ogres, pitchfork holders
See me in a pub lacking focus

Mana-Mana-Mana just bop like Noddy
Real black heart like Gonny
Man are old school like Gotti
Jay Franklin with a shotty
Mana-Mana-Mana are just bop like Nod
Real black heart like gonns
Man are old school like Gotts
Jay Franklin with a shots

Come from the bits and the bits are local
Used to be quiet but now I move social
Calm down treacle, I'm anti-social
Hold tight family, family stretch global
People get gassed, weren't there when I was local
Now they they get gassed cause my shows ain't local
I was in hostel, shotting O's though
Bun a 100 gram in the ozone
Match man T, man I'm just mashing
And I ain't involved if we ain't got cash in
All them times had trees in the attic
For the P's and I'm a fiend, I'm an addict
Bad habits won't pay no taxes
You're not real, manufactured
Young pirate, eye patch and a dagger
See you wife and your wife got daggered

Mana-Mana-Mana are just bop like Noddy
Real black heart like Gonny
Man are old school like Gotti
Jay Franklin with a shotty
Mana-Mana-Mana are just bop like Nod
Real black heart like gonns
Man are old school like Gotts
Jay Franklin with a shot

It's T
When I say T it's T
Naming neon
Slowthai demon
Dressed like Jesus

Which put the cream on its T
When I say T it's T
Naming neon
Slowthai demon
Dressed like Jesus
