

## PLAY WITH FIRE

slowthai

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
(I'm hypersensitive)

"Soft lad, stop acting like a bitch"  
I wish I pressed skip, everything is negative  
It gets hectic  
Stressing if you're from the place I live  
They couldn't catch my drift with your nose in my business  
Nail on the head, I make it click  
A chain's only as strong as its links  
That's why I gotta box from squints  
And the coke makes the cats look like they're Jar Jar Binks  
Top it off with a wink

That's the icing on the cake  
The cherry on the top  
My bike ain't got no brakes  
That's why I never stop  
I say it to your face  
'Cause I don't give a fuck  
Name a time and a place  
Getting brave, you dug your grave  
I'm the next best thing since electric  
It is what I said it is  
And that's expensive  
Remember I didn't have a flint  
Skint, tryna get it  
Setting fire with my lighter  
I did it ambidextrous

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Full moon  
Put me in a corner, have me swinging with a pool cue  
I do this for them broke youts  
No money in the lunch room  
My brother's in the magistrates  
All they know is slanging weight  
And banging till their knuckles break  
Mothers say, "For Pete's sake"  
If we could only keep Pete safe  
Pete's up the street with heat tryna bleed grapes  
Some people can't see straight, need to find direction  
If I clock an interception, Cruyff Turn, watch your knees break

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Play with fire, fire  
Play with fire, let it rip  
Play with fire, fire  
Play with fire, let it burn

Sometimes I feel like I've got my head in a blender (Small talk)  
Compromising with too many empty promises (I hate the internet)  
If you love the world for its flaws you will never be disappointed (Honestly  
, honestly)  
You're my everything and I have no words (I fucking hate you)  
(Just be sincere, be honest)  
I just wanna make you proud (Sometimes I hate myself, I fucking hate you)  
Do what you wanna do and not what's expected of you (I love you)  
If anyone's seen sleep, tell him I miss him dearly  
I'm happy being the fucking flower boy (I just wanna be in the pub with my b  
oys)  
Don't let your mattress swallow you, wallowing, thinking what you gonna do o  
r gotta do (Fuck all these expectations)  
My heart and mind are at war, my soul's out here playing piggy in the middle  
(Don't be scared to be yourself)  
Why do I feel like I'm holding the short straw?
