

Out in the dark he found a road  
To quietly walk alone  
Harder the days he learned to know  
The calm comes after the storm

Sit back and watch the rain  
Breathe out before tomorrow  
Slow down before you break  
And you're cast aside

Meet me at the back of the bus  
Beep beep with my hat and my gloves  
See me, I'm erratic on drugs  
Do stuff I regret, feel embarrassed tomorrow  
Wagwan what ya under?  
Far side of the yonder  
Far cry from a younger  
Hard times made me stronger  
And these drinks makes me drunker, drugs made me fonder  
Selling drugs gets you richer, that's a royal flush on the river  
Go HMP for a winter  
I grew up 'round toxic  
And people can't sea 'cause live in a pond with some dumb fish  
I was with sharks outside the park  
When it's dark, lighters spark, nobody wanna try it with us  
Pop out like a jack-in-the-box  
Saying "This what you wanted?"

Same ones that will praise you up  
Be the same ones to say you're done  
It's all love  
Non-stop, you get cropped like bud  
'Cause no one wanna see you blossom on top  
From the bottom, yeah, I climbed a lot  
And people tryna break my thumbs  
What's good?  
Be the barber, gotta line it up  
When push comes to shove  
You gotta push

System lagging, think we need a reboot  
Feeling stranded, got me feeling feeble  
You're never there when I really need you  
Always land on my feet like a cat out a tree  
Watch it crumble to sand while I'm gritting my teeth  
Shit flies with the magpies  
He drowned, got baptised  
Oh well, I guess that's life  
So now I gotta pass time  
So quiet, hear a penny drop  
Riot in my head and it's loud as fuck  
Fuck the people tried doubting us  
I fall on my knees with my hands to God  
Bite the hand that feeds you  
If I said I loved you I would never leave you  
If I said I loved you it's because I need you  
Call you pancake like I need my treacle

Same ones that will praise you up  
Be the same ones to say you're done  
It's all love  
Non-stop, you get cropped like bud  
'Cause no one wanna see you blossom on top  
From the bottom, yeah, I climbed a lot  
And people tryna break my thumbs  
What's good?  
Be the barber, gotta line it up  
When push comes to shove  
You gotta push

Sit back and watch the rain  
Breathe out before tomorrow  
Slow down before you break  
And you're cast aside
