

## Slow Down (Santa)

slowthai

Knock down ginger  
Used to share a room with my sister  
Single beds with the telly  
Bend the hanger for a picture  
Smiley faces with beans  
Hindsight, I'd top it with cheese  
Mango before there was cheese  
50p flats, '50p please'  
I was on the raise like a beggar in the street  
No shame, I was tryna get sweets  
Way before I ever bought weed  
I realised we could get me what I need  
Rocket science, and I never had a beach  
And I never had P and I never got a piece when they shared it between their  
friends, man it was mean  
Then I turned green, seeing red, bust the head off a TV screen  
Now they're dead like all of my dreams  
You was GTA, I was stuck in cars CBA  
Flying kites with your family, I was in your garden for the Yamaha G  
Slime, I ain't got no heart  
My demeanours dark, raised round sharks  
Your not as big as your bark, when the pit bull's loose watch it tear you ap  
art

Boiler broke on christmas day  
Ask Santa, 'Why's my life this way?'  
Putting heating on my next wish list  
Fuck Santa, cause we're cold as shit  
Boiler broke on christmas day  
Ask Santa, 'Why's my life this way?'  
Putting heating on my next wish list  
Fuck Santa, cause we're cold as shit

Slow down! Whole ounce!  
Ask about, there's accounts  
No he don't... oh yes he does!  
Slow down! Slow down!  
Slow down! Whole ounce!  
Ask about, there's accounts  
No he don't... oh yes he does!  
Slow down! Slow down!

They did the mannequin challenge  
When the feds come round I ain't standing there with my hands down my trouse  
rs unprepared - let me make that clear  
Belly like trampoline  
Ribbs broke when I trampolined out the atmosphere  
Feel like I'm in canteen, just wanna eat, why you looking at me weird?  
All I hear is voices - shut the fuck up, I can't hear  
Always make the wrong choices, but I'm all or nothing - no fear  
Mistakes, your mistaking me for someone else  
It weren't me it was someone else  
Know me but don't know yourself  
'Bout time that you know yourself
