

VEX

slowthai

Beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot

Oh beg some, beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot

Woke up broke, so I dug in my heels
The brunt of the joke couldn't get in my feels
Took time, nobody is real
Can't be my slime, I don't roll with eels
Put a blade in spine 'cause I love hot meals
I don't wine and dine when I'm playing the field
Earn your stripes, but a man's got kills
I ain't the love of your life, I'm the guy with pills
Sleepless nights, get cold chills
And a peaceful mind, been tortured still
Wet-wipe kids ain't shit on my shoe
I used to get vexed, now I just, mmhmm
Been bad since I stepped out the womb
In a barrel with crabs, had to make them food
Always wanted more, but I learnt to make do
If my attitude's poor, it's because of you

Beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot

Oh beg some, beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot, oh beg some-

Box a fassy out his socks and slides
God forgive me if I end his life
Thought I was gonna say "buss my nine"
But that's not my line, gotta spud my guy
It's slowthai so I shout out Thai
Can't sip my drink, can't even sky
Got court fines, still buss a slow wine
And please remember you are still in line
Skets getting me stressed right now
Calm down, darling, your poom poom's loose
I see you tryna flex right now
Don't care about you or your Jimmy Choo's
I ain't playing kiss chase
I ain't playing duck duck goose
Can tell that you ain't got a clue
Heard your man's mixtape, thought it's a piss-take
So I use his case to ash my zoot

Beg somebody try test me
(Pussio)

People are getting me vex right now

Oh beg some, beg somebody try test me
People are getting me vex right now

I wanna let the rope swang
Pull up to your yard like I'm the postman
Never been the boy, I was a grown man
All I knows destroy, get with the program
Crackhead smoking crack off of a Coke can
Packet in your bracket, I'm the snowman
Brother doing life, he's in a snow-globe
Albo sending white, he got a boat-load

Beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot

Oh beg some, beg somebody try test me
Buss yout, come through fuck up your crew
People are, people are getting me vex right now
Putting too much chip in the zoot, oh beg
(You're killing me now)
