Feels Like

Slushii

I've seen it before
I know from my past
No right and no wrong
The good and the bad

I've danced with the liars
I fell through the cracks
But somehow I still found my way back

Cause with you my heart is compromised
Every second is a whole lifetime
Let me lay my body by your side
Cause I'm goin insane yeah you got me saying

Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like
Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like

Baby this is what loves feels like
Baby this is what loves feels like
Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like

I've been through it all
I've known it enough
The ups and the downs
When push comes to shove

And you'll never be found
If you never get lost
Yea the lines were all made to be crossed

Cause with you my heart is compromised
Every second is a whole lifetime
Let me lay my body by your side
Cause I'm goin insane yeah you got me saying

Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like
Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like

Ohhhh, ohhh
Baby this is what loves feels like
Baby this is what loves feels like

Baby this is what loves feels like
Baby this is what loves feels like
