Fly High

Slushii

You ask me where we stand
But I believe the world is bigger than us, so it seems
You tell me that this dream is all make-believe
If that's the truth, don't wake me up, I'll fly

I'll fly high, I'll soar above the universe
If you're mine, we'll dance until we break the curse

You ask me where we stand
But I believe the world is bigger than us, so it seems
You tell me that this dream is all make-believe
If that's the truth, don't wake me up, I'll fly

I'll fly high, I'll soar above the universe
If you're mine, we'll dance until we break the curse
