

## Forever

Slushii

I don't like to be alone at night  
I guess everybody in the world's got a time they don't like  
Mine is right before I go to sleep

And now it's going to be always, all the rest of my life

Hold me, just give it up, one day  
You know we can if we want, you just have to say the word  
Need me, all you have to do is see me  
And then, in the end, we can crawl inside, it's far away

Hold you in the light  
Hold you, hold you  
Hold you, hold you  
Hold you in the light  
Hold you, hold you  
Hold you, hold you  
Hold you, hold you

Ey ey, ey ey, ey ey, ey ey  
Baby it's all broken like in fever, fever  
Ey ey, ey ey, ey ey  
Baby it's all broken like in  
Ey ey, ey ey, ey ey, ey ey  
Baby it's all broken like in fever, fever  
Ey ey, ey ey, ey ey  
Baby it's all broken like in

Hold me, just give it up, want me  
You know we can if we want, you just have to say the word  
Need me, all you have to do is see me  
And then, in the end, we can crawl inside, it's far away
