

# I'll Be There

Slushii

When you're lonely, don't say a word  
Just phone me, I'll be there  
When you're lonely, don't say a word  
Just phone me, I'll be there

They say that it isn't possible to grasp the concept of another world, that the galaxy we inhabit is the final frontier. I wish that they could see the world through eyes like mine. Eyes that see the universe shrouded in the light of possibility. A light of hope.

When you're lonely, don't say a word  
Just phone me, I'll be there  
When you're lonely, don't say a word  
Just phone me, I'll be there

I wish that they could see the world through eyes like mine  
I wish that they could see the world through eyes like mine  
I wish that they could see the world through eyes like mine  
Hello?
