

I'm all alone in this place we call home
Five thousand miles away and I'm on my own
I want to go to where you've gone
Time flickers by when you're in my house
I feel your heartbeat from far, far away
Singing "I love you"
The one in my chest hurts without you right here
And I wish you knew I miss you

I'm all alone in this place we call home
Five thousand miles away and I'm on my own
I want to go to where you've gone
Time flickers by when you're in my house
I feel your heartbeat from far, far away
Singing "I love you"
The one in my chest hurts without you right here
And I wish you knew I miss you

I miss you
