

Overflow

Slushii

Take away the pain, it's on my bones
Feelings in my brain, they overflow
Take away the pain, it's on my bones
I feel myself begin to fade, fade to black

Take away the pain, it's on my bones
Feelings in my brain, they overflow
Take away the pain, it's on my bones
I feel myself begin to fade, fade to black

Take away the blame
Let me die before all becomes sordid and I can't forgive
I'm a lockup in startup and empty, fold all of these hands
Every job will you help but these time you need mine in the end
And that's okay because I will move on to tomorrow again
