

# So Long

Slushii

It was the year  
I didn't check the terms and conditions of your heart, dear  
You wrote out your song  
That swept into the summer of it all, it all

It was the time your momma warned us all that you were gone  
She told me love had fixed you, turned you wrong  
That winter, you were calling out your song, song, oh

You know I want the best in you  
Hey boy, give me back your love  
Won't you hinder to my heart and we sit among the stars?  
The stars, ooh yeah, ooh yeah, stars

It was the time your momma warned us all that you were gone  
She told me love had fixed you, turned you wrong  
That winter, you were calling out your song

Song, oh
