

Watch Yo Back

Slushii

(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)

When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better...

When you're in the streets, you better
Watch, watch, watch your back

Yeah
Yeah
Yeah
Yeah
(Watch your, watch your...)

(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)
(When you're in the streets, you better...)

When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better watch your back, back, back
When you're in the streets, you better...

When, when, when, when
When, when, when, when
When you're in the streets, you better...

(Watch your, watch your...)
Yeah
Yeah
