

## Without You

Slushii

I can't go on without you  
I can't go on without you  
I can't go on without you  
I can't go on without you

I can't go on without you  
Without you, without you  
You, you, you...  
I can't go on without you

I can't go on without you  
I can't go on without you  
I can't go on without you  
I can't go on without you

I can't go on without you  
I can't go on without you  
I can't go on without you  
I can't go on without you

I can't go on without you  
Without you, without you  
You, you, you...  
I can't go on without you

I can't go on without you  
I can't go on without you
