

Maggot

Slutever

I look at you and suddenly, I start to puke
You're everywhere, seeping into everything
Piles of trash, but I won't let you hatch because you're buggin
g me

I'll get revenge
Pour bleach on your head
And now you're dead
Disinfect, so hold your breath and say "goodbye"

Guilt sinks in, I feel you crawl under my skin
'Cause after all, I can only blame myself
My neglect turned you into an insect, now you won't let me be

I'll get revenge
Pour bleach on your head
And now you're dead
Disinfect, so hold your breath and say "goodbye"
