To have this around you was the last thing I ever wanted
To have this around, I never thought I would agree
You should open up your eyes sometimes the world's still there!
Even if you haven't left your couch for days...
Sometimes you just have to let it go

Now that you're older, things aren't much better...
It starts to look bad when you can't pay your rent

Please don't put your eyes on me it makes it harder when you leave
What to do when you can't get off the crowd?
Sometimes you just have to let it go
Sometimes it's not better all alone

Now that you're older, things aren't much better...
It starts to look bad when you can't pay your rent

Now that you're older, things aren't much better...
It starts to look bad when you can't pay your rent

Sometimes you just have to let it go away
Sometimes it's not better all alone

Now that you're older, things aren't much better...
To have this around you was the last thing I ever wanted
It starts to look bad when you can't pay your rent
To have this around, I never thought I would agree
Now that you're older, things aren't much better...
You should open up your eyes sometimes the world's still there!
It starts to look bad when you can't pay your rent
Even if you haven't left your couch...
