

Smells Like Milk

Slutever

I told you you smelled nice
You told me to shut up
I bought you real nice things
You bit at my hand

We had a little love dino
He's probably still at your house
Unless one of those shitheads threw him out

What the fuck is up?
What the fuck
What the fuck is up?
What the fuck

Summer came along
And everyone moved out
I told you you could live with me
You could stay at my house

So we called all your friends
We were always together
Nothing felt more right
Nothing was better

Where the fuck are you guys now?
Where the fuck are you guys now?
Where the fuck are you guys now?
Where the fuck

My baby, my baby
I only think of you
And when I do
It makes me feel blue

I stay up all night
And I never go to sleep
Cause when I do, I dream of you and me
