

Let Me Have It All

Sly & The Family Stone

You have turned into a prayer
I can feel I'm almost there
Closer, closer to the top
Looking down is quite a drop

Let me have it all
Let me have it all
Let me have it all
Let me have it all

You set up a barrier
Don't you know I'd marry ya
I can't explain how you make me feel
Don't you know I'm feeling real
Make me feel like a king
Everything is everything

Let me have it all
Oh, let me have it all
Let me have it all
Let me have it all

You've turned into a prayer (oh yeah)
I can feel you almost there
Closer, closer to the top
Looking down is quite a drop
Just to be near you is to be
Let me have the rest of me
You set up a barrier
Don't you know I'd marry ya
Can't explain how you make me feel
Don't you know I'm feeling real
