

## DJs & Porsches

Smallpools

I, chase, blind, faith  
To brand new obsession  
She's a coping device  
For another addiction  
That I can romanticize, oo-oh

But it is a wonderful feeling  
And I built it this way  
So I can cherish the heartache  
When all the DJs in Porsches steal her away

I need another exemption before I can rise  
Can try a bit of passion but soon it'll die  
There is no time for appreciating  
Oh, it's killing my flow  
Fly away to your castle  
The science of letting go, oo-oh

Steal her away

But it is a wonderful feeling  
And I built it this way  
So I can cherish the heartache  
When all the DJs in Porsches steal her away

Chase, blind, faith  
Steal her away

But it is a wonderful feeling  
And I built it this way  
So I can cherish the heartache  
When all the DJs in Porsches steal her away

Chase, blind, faith
