

## Socio-Empath

Smallpools

Where did you go?  
Laying on the street dead of summer time  
Taking the blow for all the ones who will always be fine  
Where did you go?

Thoughts and prayers and I-don't-care's  
Next time promise we'll do better  
(We'll do better)

I'm a socio-empath but nobody gets that (but nobody gets that)  
I'm a socio-empath but nobody gets that (nobody gets that)  
Carry on with my life  
Another day, another vice  
Next time promise we'll do better  
I'll keep buying boots and sweaters

(Nobody gets that)  
(Nobody gets that)

Where did you go?  
Picked out a shirt for a sunny day  
How could you know?  
Caught in the scope of somebody's bad day  
Where did you go?

Found a stray I'd love to save  
Wish I had the means to do that (we'll do better)  
Screw that

I'm a socio-empath but nobody gets that (but nobody gets that)  
I'm a socio-empath but nobody gets that (nobody gets that)  
Carry on with my life  
Another day, another vice  
Next time promise we'll do better  
I'll keep buying boots and sweaters

(Nobody gets that)  
I'll keep buying boots and sweaters  
(Nobody gets that)  
Next time promise we'll do better  
I'll keep buying boots and sweaters
