

Swayze

Smallpools

The less time that I have left the more I want the right thing
The best films stand the test of time, maybe we could do the same thing

It's like calendars of classic cars, baby, we could be like blue jeans

It's got me wondering, it's got me wondering

If I took something
Or I hit my head
Cause I'm not seeing straight
But don't pinch me yet
We can stay in bed yeah

I kinda feel like I'm crazy
Cause life moves fast but I'm still stuck in a daydream
Like an old montage of slow-mo shots, hey baby
I'm gonna hold you down and lift you up like swayze
You spin me round and round, I kinda feel like I'm crazy

The less time that I have left the more I want you here with me
Half dressed in my white shirt, my risky business beauty
The boulevard we walk on stars but you could steal the whole scene
It's got me wondering, it's got me wondering

If I took something
Or I hit my head
Cause I'm not seeing straight
But don't pinch me yet
We can stay in bed yeah

I kinda feel like I'm crazy
Cause life moves fast but I'm still stuck in a daydream
Like an old montage of slow-mo shots, hey baby
I'm gonna hold you down and lift you up like swayze
You spin me round and round, I kinda feel like I'm crazy

I kinda feel like I'm crazy
And I want, I want somebody to save me
Somebody to save me

I kinda feel like I'm crazy
I'm gonna hold you down and lift you up like swayze
You spin me round and round
