Smartbomb

Did I stutter? Did I slur? I've seen what happens to a dream deferred.

Washed up in dirt, concern: commerce.

The question, who came first and what their worth.

In a system designed at conceptions birth, you don't know me, I know you're bellicose.

I'll stay passive until my aggression breaks your nose.

f**k you, f**k Bush, f**k this.

f**k making points that I know you'll miss.

f**k you and your scene for belittling issues that need to be addressed.
