

All Eyes on You

Smash Into Pieces

The killer for hire, soldier of fortune
Gotta walk through a fire for what's important
And the warrior's blood through your veins is cursin'
The killer for hire, soldier of fortune
The whole world's watchin' every move
Take your shot, don't act a fool
Oh, you got it, all you ever need
It's one bullet in the chamber
Breathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
One bullet in the chamber
Breathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
Do or die, you're a mercenary
One of a kind, that's your burden to carry
Go and make 'em proud, do what's necessary
Oh no, do or die, you're a mercenary
Now the whole world's watchin' every move
Take your shot, don't act a fool
Oh, you got it, all you ever need
It's one bullet in the chamber
Breathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
One bullet in the chamber
Beathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
Now the whole world's watchin' every move
Still your heart, so much to prove
Fight for all the things, that you believe in
Now the whole world's watchin' every move
Take your shot, don't act a fool
Oh, you got it, all you ever need
One bullet in the chamber
It's one bullet in the chamber
Breathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
One bullet in the chamber
Breathe easy, take your aim, boy
Ain't nobody gonna save you
So what you gonna do? (All eyes on you)
