

Another Day on the Battlefield

Smash Into Pieces

I've seen those eyes
Looking for paradise
Something's wrong
What have you done?

I care for you
Do you still care for me?
I fear one day
You will be gone

We fight
We try
We break
We cry
Deep down I know how this ends

You will bury me in sorrow
Leave me no tomorrow
It's another day on the battlefield
Always ending with this feeling
Heart in need of healing
It's another day on the battlefield

I've lost my trust
Knowing you hide too much
Lost myself
Playing this game
I always knew
I wasn't enough for you
I'm better of...
Walking away

Cause we fight
We try
We break
We die
Deep down I know how this ends

You will bury me in sorrow
Leave me no tomorrow
It's another day on the battlefield
Always ending with this feeling
Heart in need of healing
It's another day on the battlefield

We fight
We try
We break
We cry
Deep down I know how this ends

You will bury me in sorrow
Leave me no tomorrow
It's another day on the battlefield
Always ending with this feeling
Never ending bleeding
It's another day on the battlefield
