

## Color of Your Eyes

### Smash Into Pieces

Had we made another decision  
Gone through our thoughts not lost our vision  
Care for another life, not only seen our own

A new life could have grown  
We never stopped to think  
Never had time to feel  
It should just disappear

If I said I never think about you, I would lie  
It kills me to never know  
Never know the color  
The color of your eyes

Thoughts of who you would be  
Would you look like your ma or me  
A fathers proud only child  
Kids coming back to me  
In my black mind

If I said I never think about you, I would lie  
It kills me to never know  
Never know the color  
The color of your eyes

Can't find the reason why  
No matter how I try  
It's killing me  
Can't find the reason why  
No matter how I try  
It's killing me

If I said I never think about you, I would  
I would lie

If I said I never think about you, I would lie  
It kills me to never know  
Never know the color  
The color of your eyes

If I said I never think about you, I would lie  
It kills me to never know the color of your eyes
