

## In Need of Medicine

## Smash Into Pieces

I'm taking those pills just to forget it  
Oh yes  
Forget the memories  
Oh no,  
Stuck in my head again  
In need of medicine

It's a long way up when you are down  
There's no way out when you feel alone  
(When you feel alone - I let it all go go go)

I wash it down my throat to get myself up  
Left you a note what it's all about  
(What it's all about - I let it all go go go)

You give me the look give me the look could I give It up?  
You wanna know you wanna know what I think about

Could I let go go

I'm taking those pills just to forget it  
Oh yes  
Forget the memories  
Oh no  
Stuck in my head again  
In need of medicine  
Can you forgive me  
Oh why  
Are you still by my side  
Oh yes,  
For you I stay alive but I would rather die

Translate it into words  
Would scare you off  
This is how I feel I can let you see

(I can let you see - I let it all go go go)

Well I drink behind closed doors  
Won't see my flaws hide what I can to be your superman

(I let it all go go go)

You give me that look give me that look I tell you that it's okay  
You wanna know you wanna know  
I don't know what to say

I can't feel my face

I'm taking those pills just to forget it  
Oh yes  
Forget the memories  
Oh no,  
Stuck in my head again  
In need of medicine  
Can you forgive me  
Oh why,

Are you still by my side  
Oh yes,  
For you I stay alive but I would rather die  
(Alive alive alive alive - Stuck in my head again in need of medicine)

The demon is tamed by me but I feel how its catching up following  
A part of my soul my shadow surrounds me wherever I go

The demon is tamed by me but I feel how its catching up following  
A part of my soul my shadow surrounds me wherever I go

(I'm taking those pills just to forget it oh yes (Yeah) forget the memories  
oh no (No)

Stuck in my head again  
(In need of medicine)  
Can you forgive me  
Oh why,  
Are you still by my side  
Oh yes,  
For you I stay alive but I would rather die

(Alive alive alive alive - Stuck in my head again in need of medicine)  
(Alive alive alive alive - Stuck in my head again in need of medicine)
