

Lullaby

Smash Into Pieces

I'm gonna sing you a lullaby
From when I was young, young like you
Let this sweet little rockabye
Rock your world tonight you're the special kind

While the stars shine bright and we say goodnight
I'll be by your side sing a lullaby
I kiss your cheek and you fall asleep
To this melody (melody)
With this lullaby

Lulla lullaby lullaby lullaby
Rockabye keep your dreams alive
Lulla lullaby lullaby lullaby
I'm by your side baby don't you cry
Cry, no

My mama told me that she could see
The power that's within me from when I was young
Now I know what she talked about
You're like me I clearly see born to be free

While the stars shine bright and we say goodnight
I'll be by your side sing a lullaby
I kiss your cheek and you fall asleep
To this melody (melody)
With this lullaby

Lulla lullaby lullaby lullaby
Rockabye keep your dreams alive
Lulla lullaby lullaby lullaby
I'm by your side baby don't you cry
Cry

I remember when dad used to say handle the pain
Nothing comes easy we have to be brave
Singing a lullaby when I had been afraid
Talking 'bout back in the days
Lived in the project with the problems that we faced
Like animal trapped in a cage
But time can change
Now I be traveling from place to place
Live on stage night and day, life is strange
So this is my way to repay
With this lullaby

Lulla lullaby lullaby lullaby
Rockabye keep your dreams alive
Lulla lullaby lullaby lullaby
I'm by your side baby don't you cry
Cry no
