

Rage

Smash Into Pieces

Fire from the start
Kept it in my heart
Won't bleed it out

Holding back the dark
Be the one you want
I played my part

Can't hold it
Taking over me
Taking over me

Break away
The voices in my head
They can't be tamed

The wolves inside are tearing through the grey
The noises is taking over me
I'm giving it away
Giving into rage

Giving it away
Giving into rage
Giving into rage

Drowning in the flame
Still smiling through the pain
Killing me slow

Biting on my tongue
But silence weighs a ton
Time to let go

Can't hold it
Taking over me
Taking over me

Break away
The voices in my head
They can't be tamed

The wolves inside are tearing through the grey
The noises is taking over me
I'm giving it away
Giving into rage

Giving it away
Giving into rage
Giving into rage

Pull me out
Been screaming in a world so cold
Lift me now
I'm reaching for the stars above
Take me far beyond

Break away

The voices in my head
They can't be tamed

The wolves inside are tearing through the grey
The noises is taking over me
I'm giving it away
Giving into rage

Giving it away
Giving into rage
Giving into rage
