

## Rise and Shine

### Smash Into Pieces

My straps are 'bout to come undone  
I've been abused for far too long  
You made me see the enemy is from within

I feel like I have been reborn  
Like I won't take this shit no more  
Hey! Nothing standing in my way  
I won't live my life in shades of grey

Hallelujah - I feel your voice command me  
My Messiah - It's time to rise and shine  
My mind on fire - as part of your creation  
My Messiah - It's time to rise and shine

Together we're unstoppable  
A destiny under control  
We are coming for our wildest dreams

I finally know where I belong  
I'm feeling like an army strong  
Hey! Nothing standing in my way  
I won't live my life in shades of grey

Hallelujah - I feel your voice command me  
My Messiah - It's time to rise and shine  
My mind on fire - as part of your creation  
My Messiah - It's time to rise and shine

Hallelujah - I feel your voice command me  
My Messiah - It's time to rise and shine  
My mind on fire - as part of your creation  
My Messiah - It's time to rise and shine

Yes I will answer the apocalypse call
