Rock 'N' Roll (The Apocalypse Tribute)

Smash Into Pieces

Yeah yeah

What's with the world today?

Why bother seriously?
What's on the other side?
Do you feel me?
Are people freak insane?
Am I the one to blame?
Maybe I've lost it all?
Who will catch my fall?

You are like a God to me
Guiding me with your melody
So I'll find my way back home
Where I belong

You always save save save my soul soul
Every time I'm losing control
You'll take me high high high when I'm down down
With a super almighty sound
I'm still alive 'cause I praise good ol' Rock N Roll

Yeah yeah

So if I don't play ball
I'm psychological?
I'm in another league
Will you judge me?
When will I start to feel?
Is this a life for real?
Maybe I'm lost in space?
Who will hear me scream?

You know where I wanna be
Guiding me with your symphony
So I'll find my way back home
We're I belong

You always save save save my soul soul
Every time I'm losing control
You'll take me high high high when I'm down down
With a super almighty sound
And words that you're preaching to me
Are touching and holy supreme
You always save save save my soul soul
Every time I'm losing control
I'm still alive 'cause I praise good ol' Rock N Roll

You save my soul
When I loose control
I'm still alive 'cause I praise good ol' Rock N Roll

You always save save save my soul soul
Every time I'm losing control
You'll take me high high high when I'm down down
With a super almighty sound

And words that you're preaching to me
Are touching and holy supreme
You always save save save my soul soul
Every time I'm losing control
I'm still alive 'cause I praise good ol' Rock N Roll
