

They talk of the northerners
We strike fear in the hearts of men
We we're born to be warriors
And we'll fight 'til we meet our end

Set fire to the sky like a lightning strike
Thunder crashes where we ride
Heavens are a blaze and my brothers cry
To Valhalla it's our time
To Valhalla it's our time
To Valhalla it's our time

We live like our ancestors
To make sure that we meet again
And our foes call us blasphemers
As we send them to repent

Set fire to the sky like a lightning strike
Thunder crashes where we ride
Heavens are a blaze and my brothers cry
To Valhalla it's our time
To Valhalla it's our time
To Valhalla it's our time

They talk of the northerners
We strike fear in the hearts of men
We we're born to be warriors
And we'll fight 'til we meet our end

Set fire to the sky like a lightning strike
Thunder crashes where we ride
Heavens are a blaze and my brothers cry
To Valhalla it's our time
To Valhalla it's our time
To Valhalla it's our time
