## Smash Into Pieces

(I know that you're venom)

It's a dangerous game  
That I'm tempted to play  
When I'm drawn to your fire  
I can't turn away

You get under my skin  
Take control from within  
But I'm not for hire

I know that you're venom  
Tainting my blood with toxins  
And tearing me down again  
Poison burning my throat  
You're noxious  
Your affection is venomous  
Your affection is venomous

It's a heavenly hell  
When I'm under your spell  
A hunger of chaos  
I'm losing myself

When I'm lost in between  
And I try to break free  
You won't release me

I know that you're venom  
Tainting my blood with toxins  
And tearing me down again  
Poison burning my throat  
You're noxious  
Your affection is venomous  
Cause you're venomous  
Your affection is venomous

It's a dangerous game  
That I'm tempted to play  
When I'm drawn to your fire  
I can't turn away

I know that you're venom  
Tainting my blood with toxins  
And tearing me down again  
Poison burning my throat  
You're noxious  
Your affection is venomous  
You're venom  
Your affection is venomous  
You're venom  
Your affection is venomous
