

U-N-I, U-N-I, T-Y  
We gotta come together if we're gonna get it done  
U-N-I, U-N-I, T-Y  
We gotta come together if we're gonna get it done

I'm here to clear the swamp, we've been misled  
And if you think it's a joke you're gonna end up dead  
The evil man plans to divide us  
But we must all stand side by side  
The force is with us, it will get better  
Of course we'll win it if we stick together  
One for all, and all for one  
But we gotta come together if we're gonna get it done

The world don't stop, one-way track  
History repeats, don't look back  
There's just one way we survive  
U-N-I, U-N-I, T-Y  
Every day takes its toll  
We're spinnin' round and round, lost control  
The only way we survive  
U-N-I, U-N-I, T-Y

Why does it come to two million dollar homes?  
Blowing up in fire and flames, bad karma  
People should be equal, the same, the rich and the poor  
Politically walkin' the same lane, no changin' this thing  
The evil, wicked, evil, suffering pain with daily strain  
It's like a blistered hand from guitar strings  
Multi-millions got him high, acting strange  
Understand my unity slang, young [?] when the world hear it

Make a nation look in the mirror while your wife [?]  
Be preparing to shock [?]  
To separate [?] won't scare us  
It's time for no flare-ups  
Strong communication pair-up  
Firefighters comin' up to watch [?] burn with the buck  
Not knowin' I'm your brother to trust  
Put you on a drug for safety  
Your family need to believe in us  
The red cross who cross over double-crosses  
I'ma save you like Jesus

The world don't stop, one-way track  
History repeats, don't look back  
There's just one way we survive  
U-N-I, U-N-I, T-Y  
Every day takes its toll  
We're spinnin' round and round, lost control  
The only way we survive  
U-N-I, U-N-I, T-Y

Democracy, hypocrisy  
Idiocracy, false prophecy  
You and me we need unity  
Then and only then can we all be free

U-N-I, U-N-I, T-Y  
We gotta come together if we're gonna get it done  
U-N-I, U-N-I, T-Y  
We gotta come together if we're gonna get it done  
U-N-I, U-N-I, T-Y  
We gotta come together if we're gonna get it done  
U-N-I, U-N-I, T-Y  
We gotta come together, then we'll all be one

The world don't stop, one-way track  
History repeats, don't look back  
There's just one way we survive  
U-N-I, U-N-I, T-Y  
Every day takes its toll  
We're spinnin' round and round, lost control  
The only way we survive  
U-N-I, U-N-I, T-Y
