

# Whole Lotta Love

Smash Mouth

It's like I told you before baby  
And what more could I say that I know you should know  
Three little words are thrown around so much  
That after a while they begin to lose their touch

And you know that I should think of something better  
Switch it around like I came up with something clever  
Or maybe I should just shut up  
Cuz I got nothing but a whole lotta love

Could you be lovelier?

For you I'd take off my shoes and my socks baby  
And watch you laugh as I walk across burning rocks  
But then I couldn't chase you everywhere you go  
And it's all about the chase, everybody knows

I'd like to think that you would never make me do this  
But you know I'd do it if I had to prove it  
I'd do it again and again, you know I'd dummy up  
Cuz I got nothing but a whole lotte love

Could you be lovelier?  
Could I be luckier?  
So why was I so dumb?  
Maybe we're living on Mars  
And Venus is too far  
Now I got nothing but nothing to lose

Could you be lovelier? I don't know  
But I've seen a lot of things and nothing measures up  
They say that beauty never goes deeper than the skin  
I know a certain girl they've never ever seen

And every time I see ya I just wanna get near ya  
And I just wanna make it crystal clear  
It's like I told you before, I got nothing for you  
But a whole lotta love
