

## The Love I Meant To Say

SMASH

Over, I can't believe it's over  
I can't believe the love I've left  
To show some other day

Listen, I hope that you can hear me  
As I kneel down and pray  
With the love I meant to say

Shadows, you took away the shadows  
Before you, life was black and white  
Though tonight the room's gone gray

Golden, all the love you gave was golden  
Gold that I would gladly pay,  
To show the love I meant to say

Oh, music you made me hear, such music  
Without you here to guide me,  
I fear my soul will fly away

Sorry, that's the word I want to sing to you  
The other word is "Stay"  
To hear the love I meant to say
