

Goeth The Fall

The Smashing Pumpkins

Forever claims the saints
The church of mad dream
Save without disgrace and such
Hey, Goldilocks

What's better than a willow
To go and make you sad
Leaves silver on our pillow

Kino
Kino in love
Kino in love
The kino's burnt down
In fairy dust and in sight of our town

Salvation builds that pyre
'Tis plunder for the kids
The church of mad dreams has run
Hey, Goldilocks

What's better than a willow
To go and make you sad
Leaves silver on our pillow

I'm tired of lying in wait for your love
Reach for me through fire
The kino's burnt down
In fairy dust and in sight and sound
Won't you follow me
Oh, won't you dance with me
A love, a love as found
Summon naked doubt
'Cause I'll always be around

Kino

As flowers save the rain
It's warm in your embrace
The church of mad dream as such
Hey, Goldilocks

What's better than a willow
To go and make you sad
Leaves silver on our pillow

I'm tired of lying in wait for your love
Reach for me through fire
The kino's burnt down
In fairy dust and in sight and sound
Won't you follow me
Oh, won't you dance with me
A love, a love as found
Summon naked doubt
'Cause I'll always be around
