The Smashing Pumpkins

Bain of the breath how do I find you?  
Thin back the cranes left in sky  
As sacrifice, without last rite  
It falls on thee to judge most high  
In the pearl of a slummed day  
The spirit of us was felt as soft cry  
Yes, I'm sure you've inspired with love  
But one is more than you are of one  
It's time we say goodbye to fair  
Farewell to fate as wrung  
What makes thee thy true assassin  
You must ask but yet you know  
As equals, as peoples  
As bred foes we are the same  
In parried odes to thy mountains  
The spirit of us was pungent laughter  
When every road is traveled hard  
When every tear is shed for dirt  
It's time we say goodbye to fair  
Farewell to fate wrung  
We'll leave our first kiss  
For another lifetime  
Another swell time  
Another springtime  
Another...

The voice of God is silence found  
The breath of life is borrowed toil  
Lift the cross I'm falling down  
Peg the pale and brand forlorn  
They wouldn't cure, they needn't seal  
They wouldn't save an honest savior's soul  
Count zero-zero  
Zero save zero  
Count zero-zero  
Zero save zero  
Zero save zero  
Zero save zero  
Zero save zero  
In shadowed apses chant my names  
Not by birth but the ones thus claimed  
Zero save zero  
Mother knew but she couldn't know  
What they'd do and what they'd howl, yeah  
Zero save zero  
In situ, zero  
You think you're first  
You think you're last  
You feel you're chosen  
Choose what comes to pass  
Count zero-zero  
Zero save zero  
Count zero-zero  
Zero save zero  
Zero-zed-zero  
Zero save zero
