The Smashing Pumpkins

In flames
Why in flames darkened
In flames
Deaf from the decadence
I in the dance entranced unmask
Before you laugh your last I ask you wait

Midnight blue in the daylight
Sunshine orange near a fireside
By any means we fall

Kali let's touch beyonds with us
At love, at last
Kali let's touch beyonds with us
At love, at last

By remains
By remains ashened
By remains
Slave to the decadence
Our mother wept her kid in trance
Before you made my peace therein you wait

Midnight blue in the daylight
Sunshine orange near a fireside
By many means we fall

Kali let's touch beyonds with us
At love, at last
Kali of dawn
Satnam shri ram
At love, at last

Love will slay thee
Love will slake thee
Kali take me home
Love will slay thee
Love will slake thee
Kali take me home

Black holes and hope raised my intentions alone
Who reaps for those who can't but listen yet know
And know, and know

In flames
Why in flames darkened
In flames
Deaf from the decadence
In I the flames entranced
You wait in flames
In flames, in flames, in flames

Midnight blue in the daylight
Sunshine orange near a fireside
By any means we fall
