The Smashing Pumpkins

This rock of ages  
This rock of war  
And the day you left forevermore  
(Ha-ha, yeah, yeah)

Stars, they're drilling stars  
Our eyes afire for God  
We do what we want 'til we want just one more life  
We do what we want 'til we want to survive

Say you hate me  
Say you'd mark my grave  
Swear religion has no spectral race  
Chase me under  
Right back where I sang  
To brace new vision and decay in chains  
(Ha-ha, yeah, yeah)  
(Ha-ha, yeah, yeah)

All hail the blackest nights  
The blackest night I'd find  
All hail the blackest night  
Blinding me with sight

This rock of ages  
Lamplighters all  
And the day you crept through the fog of home

Stars, they're drilling stars  
Our eyes, our eyes afire for God  
We do what we want 'til we want just one more fight  
We do what we want 'til we want to survive

Say you hate me  
Say you'd mark my grave  
Swear religion has no spectral race  
Chase me under  
Right back where I sang  
To brace new vision and decay in chains  
(Ha-ha, yeah, yeah)  
(Ha-ha, yeah, yeah)

All hail the blackest nights  
The blackest night I'd find  
All hail the blackest night  
Blinding me with sight

I'll rock your mind  
I'll rock your mind  
From Milky Way to Mersey Quay  
To mystic climes  
Leave it all behind  
Rock island lines  
I'll rock your mind
