

## What If?

### The Smashing Pumpkins

What if the sun refused to shine?  
What if the clouds refused to rain?  
What if the trees grew straight on down?  
What if the wind refused to blow?  
What if the world refused to turn?  
What if the seas refused to wave?

What if, what if, what if?  
I don't know, I don't care  
What if, what if, what if?  
I know it isn't fair  
Just as long as you are always there

What if we all just showed up late?  
What if the clocks would hesitate?  
What if we all just put it down?  
What if we all just got it right?

What if, what if, what if?  
I don't know, I don't care  
Just as long as you are always there  
What if, what if, what if?  
I know it isn't fair

It came from your sleep  
And thought and vision  
Wrapped up in your weeks  
You thought them omission

What if we all just lost our minds?  
What if the birds just chose to walk?  
What if Fellini wanted to sing?  
What if we all just moved to Rome?

What if, what if, what if?  
I don't know, I don't care  
What if, what if, what if?  
I know it isn't fair  
Just as long as you are always there

As long as you are there  
I know it isn't fair  
As long as you are there  
I know and I don't care
