

Samhain, Samhain
Thru this harvest, tred nigh
All hallows' eve
Samhain, Samhain
Under mask, I am stars
All hallows' eve

Samhain, Samhain
Take my hand, vex moonlight
Midheaven wanes
All hallows' eve

Black turns forever turns to sleep
Black turns confessor turns to reap

Hey!
Come call, Autumnus
Start the wheel of Helios
Strike up the lantern
Singe forth darkest peace
We'll follow under

Samhain, Samhain
Awaken spirits in thy breath
Love, lie with thee
Samhain, Samhain
Gifting apples that I'd spoilt
To Hallowmass
Love, lie with thee

Black turns forever turns to sleep
Black turns confessor turns to reap

Hey!
Come call, Autumnus
Start the wheel of Helios
Strike up the lantern

Black turns forever turns to sleep
Black turns confessor turns to reap
Black turns sinless turns to seed
Black turns protectress turns to reap

Hey!
Come call Autumnus
