

Hummingbird

SMiLE.dk

Sing my song, little hummingbird
Sing my song, little hummingbird

I was sad and feeling down
Nobody to sing with me
Then one day, she came around
This little bird made me see

All I needed was love
All I needed was a little friend

Sing my song, little hummingbird
Wish you could stay with me forever
Sing my song, little hummingbird
Night and day, wed be together

Oh, sing my song, my little hummingbird
Oh, sing along, my little hummingbird

Every morning, I wake up
Somethings tickling in my ear
Always makes me feel so tough
I feel good when she is near

All I needed was love
All I needed was a little friend

Sing my song, little hummingbird
Wish you could stay with me forever
Sing my song, little hummingbird
Night and day, wed be together

(Hummingbird, hummingbird)
(Sing my song, little hummingbird)

All I needed was love
All I needed was a little friend

Sing my song, little hummingbird
Wish you could stay with me forever
Sing my song, little hummingbird
Night and day, wed be together

Sing my song, little hummingbird
Wish you could stay with me forever
Sing my song, little hummingbird
