

# Goodbye

Smile Empty Soul

We struggle through the life we're givin'  
Wondering if this is livin'  
Every day is harder than the last  
Our job is lame, the neighbors hate us  
All we do is fight it wages  
War that will take us nowhere fast

And its hard but we could  
Pick up and just leave  
Would you take that chance with me?

And we'll say  
Goodbye misery  
Good luck catching me  
I'm running and I'll never stop  
Cuz everything breaks down around me  
Goodbye old mistakes  
Hello better days  
I'm running and I'll never stop  
Cuz everything we love just falls apart

The earth is scorched beneath our feet  
And tragedy is all I see  
And visions that fill my every dream  
The life we had is slowly fading  
Can't afford to sit here waiting anymore  
Holding back these screams

And its hard but we could  
Pick up and just leave  
Would you take that chance with me?

And we'll say  
Goodbye misery  
Good luck catching me  
I'm running and I'll never stop  
Cuz everything breaks down around me  
Goodbye old mistakes  
Hello better days  
I'm running and I'll never stop  
Cuz everything we love just falls apart

We gotta leave the past behind  
Take a stand and be the line  
Walk away from everything we know too

Goodbye misery  
Good luck catching me  
I'm running and I'm never looking back

Goodbye misery  
Good luck catching me  
I'm running and I'll never stop  
Cuz everything breaks down around me  
Goodbye old mistakes  
Hello better days  
I'm running and I'll never stop

Cuz everything we love just falls apart

Just falls apart

...
