

## Never Ending

Smile Empty Soul

You better not make a sound  
You better not let me down  
'Cause I don't wanna break  
No, I don't wanna break  
You better not mess around  
You better not leave me now  
'Cause I don't wanna break  
No, I don't wanna break

All the things I've said  
All the words that failed me  
Probably end up dead  
Probably end up buried  
Leave it to the sun  
Never setting  
The day is never done  
Never ending

You better not scream aloud  
You better not hit the ground  
'Cause I don't wanna break  
No, I don't wanna break  
You better not leave this town  
You better stay here and drdown  
'Cause I don't wanna break  
And I will never break

All the things I've said  
All the words that failed me  
Probably end up dead  
Probably end up buried  
Leave it to the sun  
Never setting  
The day is never done  
Never ending
