(It's the Hocus Pocus Harry James)

Break a bitch down 'cause I had too
The glizz in the cut cause I had too
These niggas they temp just like tattoos
Got a Glock with a Laser to zap you
Came from whipping the work in the backroom
Half a b by the sink in the bathroom
Now I live in LA isn't that cool
And the hills have no service just big pools

I cannot go for a bitch if she chills with the opps she a dub and I mean it
The view from the room of my crib is amazing, the drive down the hill is so scenic
Lost my ring on a trip to the airport, when TSA hear this, I hope that they see it
Not tryna go back and I mean it
Me and skip on the loose with the demons

Wow, look at me
I know that they sick of me
It's a shame that they picking me
It's the voice and delivery
Why the labels so into me
She so intimate
She eating my dick like it's cinnamon
She loves it she do it again and again
Fuck it, let's call up your friends
Maybe she'll like me we'll see how it ends
The clip in the Glock I like how it blends
I know you want money stop asking your friends
Huh let's meet in the ends
Break off my guys you know how it gets
From service to Jess she wanna repent
She not content she can't even pretend
She fucking a rapper and do it again

Break a bitch down cause I had too
The glizz in the cut cause I had too
These niggas they temp just like tattoos

We in a two-seater call it cocoon
My niggas they quiet sneak up racoon
Told you break a bitch down if I had to
She wanna cover the tattoos signed up my deal at Matthew's
I'm blessed like hachu

Seen the opps getting live now they ghost
Heard that boy in the dirt here's toast
