

Ah

Already know in the cloud, just the best

Know how it is man

Lucas

It's 7AM in LA and she wanna know where I stay

I'm in SLS, finally popped me an Cialis

Listen to PSA, I gotta call my cars, so watch what you say

I put the different ways, it's me and the bros ain't no other way

Had to do what I do, now I have blood on my shoes

Louis Vuitton, Christian Dior, Dior

I had some shit in the north, but you can find me in the west

Three catch me at [?], but we have one in the head

I keep one hand on their head

She wanna do what I said and put bricks in her bed

She wanna do what I said, I wanna get to the bread

I wanna put it to bed, I don't even know how we met

Buy or Bye, it's a dream team

Bro just added a green beam

How can you chill with the opp team?

After this I certain goin' mainstream

Fuck bein' honest, so sick, I ain't talkin' 'bout farmin'

Four pockets, can't fit my wallet

Got a Draco hangin' in the closet

And I run to the money, they can [?]

How many time gotta put deposit?

I don't lose, I was drivin' in pair

Skippin' on practice, I'm 'ready prepared

Skippin' on practice, I don't really need it

I'm undefeated, I feel like a genius

Sent her back home and she with the demons

Man, my dawg, like why is he pleadin'?

He like a bitch, he wanna sneak this

I need a baddie, I need a new bitch

She like my bratty, she want a new whip (Huh)

Benzi, new whip, she don't even know how to open (How?)

Gang shit, link up, I don't know why I'm chosen (Don't)

Lives, fucked, my heart already broken

My heart already frozen, she wanna bust it open

It's 7AM in LA and she wanna know where I stay

I'm in SLS, finally popped me an Cialis
