

Black. Black. Black. Black. Black

Got me sweating like...

Black hoodie

Black Timbs

Black leather jacket

Sun beatin' on my black skin

Black queen wit me say the blacker the berry

Makes a spectacular cherry

Know I got more buttons than a Blackberry

Push em all tryna evolve and break outta

Black holes in my heart in the dark I can breathe proper

Feel the fruits of my labor no talkin' just show niggas

Foot stomped on my apple by Adam like choke nigga

Switch up I want the big booties and big trucks

Soul food nigga yam flippa

Sweet potato barrel genocide silent killer

These tears dry quicker on Versace pillows

Feel a lil' better when ya thread count thicker

Can't get it off my chest shit a hiccup

My main thang always gettin' extra ripped up

World cold roll a zip-up

Got a lil swish swish

Smell my shit comin' young windbreaker

I'm a Z-E-R-O lex time comin'

I think you know our time comin'

Young forever they old hit stage break a leg nigga OJ Mayo

High stuntin'

I be alone sometimes honey

Wonder if you hive time for me

Never let a day go

With out me blacking out on all these pesos

Crazy cause I...

I get so lonely

Can't let just anybody in and

You are the one

I need to see

So hit me

My line is still the same when I...

Uber to, ah

Roll up a...vega, it's

Lit up like...Vegas
